Inoperative and unregistered vehicles shall not be parked on, in, or in front of Premises. Tenant agrees to pay for towing of any vehicle that is in violation of this paragraph.

COLD WEATHER INSTRUCTIONS

The cold winter season requires special precautionary measures for maintaining the property. In order to prepare you for sudden changes that are bound to occur each year, please read the following suggestions carefully:

1. Monitor local weather reports for freeze warnings.
2. Leave the heat on at all times. If you are away from the Premises for an extended time, do not leave the thermostat under 60 degrees.
3. If the forecast calls for temperatures of 25 degrees or lower, open all sink and vanity cabinets in your home. This will allow warm air to circulate around the pipes. Open hot and cold faucets enough to allow the water to drip continuously.
4. Remove all hoses from outside faucets.
5. Become familiar with your nearest water cut-off valve in case of emergency.

Submit all maintenance requests through your tenant portal online or through your mobile device.

The undersigned Tenant(s) acknowledges having read and understood the above and agree to comply with the Tenancy Guidelines.
